

You
Could
Save

£220**

It couldn't be easier

If you haven't changed your gas or electricity tariff in the last 12 months, you're probably paying more than you should.

ENERGYLIX has saved its customers an average of over £220 a year.

or online at **energy.advantagesw.co.uk**

When you contact us it helps to have the following information

1. How much electricity/gas you use each year;
Or:
2. Your most recent bill or annual statement.
(If in doubt ring the number above)

Remember the more accurate the information you give us the more accurate your savings figure can be.

For Economy 7 we will need the actual consumption figure as every supplier charges very different rates for night and day use. None of the price comparison organisations contain Economy 10 information.

I've tried this price comparison route before and it's just meant loads of paperwork, is it worth it? Definitely - because we do ALL the hard work for you. **All you need to do is make that call.**

I've only just changed my tariff - surely I can't do it again already? In the UK you are allowed to move supplier every 28 days unless you agree to a longer period. If you are unsure, contact us and we will help you.

Advantage SW is run by social housing providers in the South West. They have teamed up with **ENERGYLINX**, a Consumer Focus accredited price comparison service.

****Over 60 days (from 13/06/10 to 11/08/10) customers using energylinx saved an average of £223.56p**
